1 Generic Payload for Subscription Events

1.1 1. Express Interest / Pre-Subscription

Request Data Type

```
{
    "subscriptionId": string,
    "serviceId": string,
    "serviceName": string,
    "partnerId": string,
    "partnerName": string,
    "messageType": "PRE_SUBSCRIPTION",
    "customerDetails": {
        "id": string,
        "name": string,
        "emailId": string,
        "contactNumber": string,
        "businessType": string,
        "document": [{
            "type": string,
            "value": string
        }],
        "userDetails": {
            "id": string,
            "firstName": string,
            "lastName": string,
            "emailId": string,
            "contactNumber": string,
            "role": string
        }
    }
}
```

Example

```
{
    "subscriptionId": "SUBSIN000000000001",
    "serviceId": "SERVIN000000000001",
    "serviceName": "KT",
    "partnerId": "PARTIN000000000001",
    "partnerName": "KT",
    "messageType": "PRE_SUBSCRIPTION",
    "customerDetails": {
        "id": "CUSTIN000000000001",
        "name": "ABC Fleet",
        "emailId": "abc@abcfleet.com",
        "contactNumber": "+919874563210",
        "businessType": "Private",
        "document": [{
            "type": "PAN",
            "value": "RDPGT8562Y"
        }],
        "userDetails": {
            "id": "a1a2e28e-559f-40ea9-b90a-91d5167be7524",
            "firstName": "Prateek",
            "lastName": "Saket",
            "emailId": "saket.prateek@abcfleet.com",
            "contactNumber": "+919874563210",
            "role": "Admin"
        }
    }
}
```

1.2 2. Subscription Order Confirmation

Request Data Type

```
{
    "subscriptionId": string,
    "serviceId": string,
    "serviceName": string,
    "partnerId": string,
    "partnerName": string,
    "messageType": "ORDER_CONFIRMED",
    "order": {
        "id": string,
        "planName": string
    },
    "customerDetails": {
        "id": string,
        "name": string,
        "emailId": string,
        "contactNumber": string,
        "businessType": string,
        "document": [{
            "type": string,
            "value": string
        }],
        "userDetails": {
            "id": string,
            "firstName": string,
            "lastName": string,
            "emailId": string,
            "contactNumber": string,
            "role": string
        }
    }
}
```

Example

```
{
    "subscriptionId": "SUBSIN000000000001",
    "serviceId": "SERVIN000000000001",
    "serviceName": "KT Service name",
    "partnerId": "PARTIN000000000001",
    "partnerName": "KT",
    "messageType": "ORDER_CONFIRMED",
    "order": {
        "id": "e1a2e28e-559f-40ea9-b90a-91d23423be7524",
        "planName": "SILVER"
    },
    "customerDetails": {
        "id": "CUSTIN000000000001",
        "name": "ABC Fleet",
        "emailId": "abc@abcfleet.com",
        "contactNumber": "+919874563210",
        "businessType": "Private",
        "document": [{
            "type": "GST",
            "value": "GST123456789"
        }],
        "userDetails": {
            "id": "a1a2e28e-559f-40ea9-b90a-91d5167be7524",
            "firstName": "Prateek",
            "lastName": "Saket",
            "emailId": "saket.prateek@abcfleet.com",
            "contactNumber": "+919874563210",
            "role": "Admin"
        }
    }
}
```

1.3 3. Link Account

Request Data Type

```
{
    "subscriptionId": string,
    "serviceId": string,
    "serviceName": string,
    "partnerId": string,
    "partnerName": string,
    "messageType": "LINKING_INITIATED",
    "customerDetails": {
        "id": string,
        "name": string,
        "emailId": string,
        "contactNumber": string,
        "businessType": string,
        "document": [{
            "type": string,
            "value": string
        }],
        "userDetails": {
            "id": string,
            "firstName": string,
            "lastName": string,
            "emailId": string,
            "contactNumber": string,
            "role": string
        }
    },
    "additionalInfo":string
}
```

Example

```
{
    "subscriptionId": "SUBSNA000000000001",
    "serviceId": "SERVNA000000000001",
    "serviceName": "Amous",
    "partnerId": "PARTNA000000000001",
    "partnerName": "Amous",
    "messageType": "LINKING_INITIATED",
    "customerDetails": {
        "id": "CUSTNA000000000001",
        "name": "ABC Fleet",
        "emailId": "abc@abcfleet.com",
        "contactNumber": "+919874563210",
        "businessType": "Private",
        "document": [{
            "type": "EIN",
            "value": "12-3456789"
        }],
        "userDetails": {
            "id": "a1a2e28e-559f-40ea9-b90a-91d5167be7524",
            "firstName": "Prateek",
            "lastName": "Saket",
            "emailId": "saket.prateek@abcfleet.com",
            "contactNumber": "+919874563210",
            "role": "Admin"
        }
    },
    "additionalInfo":""
}
```

1.4 Partner Response

URL : https://{losURL}/los/api/v1/subscription/connector/partnerResponse
Header x-api-key : string (x-api-key will be shared separately)

Request Data Type

```
{
    "subscriptionId": string,
    "customerId": string,
    "serviceId": string,
    "messageType": string, ENUM:["PRE SUBSCRIPTION, LINKING
INITIATED"],
    "partnerResponse": string, ENUM:PRESUBSCRIPTION["ACCEPT,
REJECT"],LINKING["EXIST","NOT EXIST"]
    "reason": string,
    "pointSolutionURL" : string
 }
//NOTE: If partnerResponse is REJECT, reason field is
mandatory
```

Example

```
{
    "subscriptionId": "SUBSNA000000000001",
    "customerId": "CUSTNA000000000001",
    "serviceId": "SERVNA000000000001",
    "messageType": "PRE SUBSCRIPTION",
    "partnerResponse": "ACCEPT",
    "reason": "reason of rejection",
    "pointSolutionURL" : ""
}
```

Response Data Type

```
{
    "status": integer,
    "message": string,
}
```

Example

```
{
    "status": 200,
    "message": "Success",
}
```

Response status code with message

status	message
200	Success
401	UnAuthorized
404	Not Found
400	Bad Request
